

CLEAN MAT ADHESIVE SHEETS

by Surface Shields

Clean Mat is a polyethylene film mat with a tacky surface that prevents dust and dirt from spreading while building or remodeling. Each mat contains 30 sheets which are tabbed for easy removal of each layer. Clean Mats are commonly placed outside of dust or lead containment areas, or used as a door mat when entering a building. They are sold only in case units. These self-adhesive mats come in a large variety of sizes to fit just outside of any jobsite area and are also available in blue or white. Do not use Clean Mats on carpeted surfaces. For carpeted surfaces use Surface Shields Step n Peel clean mats.

- Tacky surface mat to remove dust and dirt from footwear
- Mat contains 30 tabbed sheets for easy removal
- Prevents dust and dirt from spreading while building or remodeling
- Do not adhere to carpeted surfaces

Tip: Clean Mats can be used as a lead containment product. Place a Clean Mat just outside of a contained area to pull harmful materials from your shoes.
