

DUST SHIELD PRO

12 FOOT ADJUSTABLE POLES

by Surface Shields

Dust Shield PRO, the new, state-of-the-art system that makes constructing temporary walls to control dust and heat loss, quick, simple and affordable! The Dust Shield PRO locks the screening material firmly against the ceiling. The dent resistant poles, crafted of a heavy gauge aluminum, can be extended up to 12 feet and are designed to stand up to the toughest conditions. Once done, the Dust Shield PRO pole can be compacted to just 57 inches tall.

Each box comes with 2 poles

QUICK ATTACH FOOT

Magnetic fastener holds sheeting firmly against ceiling

GRAB, TWIST AND LOCK

Quick and easy! Pole extends up to 12 feet

360° SWIVEL BOTTOM

Allows poles to be used on flat and angled ceilings
