

ENTRY SHIELD

DOOR FRAME PROTECTION

by Surface Shields

Entry Shield is a heavy-duty door jamb protection product that easily snaps around door frames. It's available in a thick cardboard or plastic material that defends against dents and scratches. Entry Shield fits most door casings that are 6-8 inches wide. The plastic version comes with a foam backing for added protection.

Entry Shield is available in three different sizes and materials. The plastic version with foam backing comes in 45" and 72" lengths, while the cardboard version of Entry Shield is 60".

- Protects door frame from accidental scratches and dents
- Available in paperboard or plastic
- Snaps around door casings 6-8 inches thick
