

# CARPET SHIELD®

Product Information   Application   Warranty

**Before using, the purchaser and/or user must determine suitability of this product for the intended use and the purchaser and/or user assumes all risks and liabilities in connection therewith.** Because there are so many variations in carpet fibers and products used to prevent carpets from staining, it is required that the user of this product determine suitability. To determine suitability test Carpet Shield® on a small portion of carpet that is in a non-exposed area. Leave Carpet Shield® in place for at least 48 hours and then inspect to ensure there was no disturbance to the carpet fibers.

## CAUTION

**Before applying Carpet Shield® please carefully review the following information for best results:**

- **Failure to comply with the following instructions will void the warranty.**
- Carpet Shield® is for carpeted surfaces **only**, do not apply to any other surface or allow Carpet Shield® to overlap beyond the carpeted area or onto hard surfaces like wood or tile.
- Use only on completely dry carpeting. If carpeting was recently cleaned allow for **at least 48 hours** for carpeting to dry and cleaning agents to dissipate.
- For any newly installed carpet, both tack strip and glue down, do not use Carpet Shield® for **at least 72 hours** to allow vapors to dissipate completely through the padding and the carpet.
- If subjected to extreme conditions of temperatures exceeding 95° F, direct sunlight, heavy foot traffic or outdoor exposure, it is required Carpet Shield® film be inspected and replaced with new material more frequently and as needed.
- Do not use in extreme humidity conditions or high moisture areas like basements.
- **Use on synthetic fibers only, NOT for use on oriental carpets or wool carpeting.**
- Carpet Shield® is for **temporary protection up to 30 days, REMOVE ON 30TH DAY** or sooner.

**Easy Application Steps for Carpet Shield®** Remove over wrap from the product and locate the start of the film. Pull film off the roll slightly to determine the direction the film unwinds. Place film sticky side down on the carpeting, secure start of the roll by applying slight pressure and then push roll in the desired direction. Apply slight pressure over the top of the film as you roll out to the desired length and cut with a utility knife or sharp edge. To remove simply lift film up at an edge, pull off and discard.

### Product Storage Guidelines

For best performance store at room temperature and out of direct sunlight exposure. If Carpet Shield® is stored in extreme conditions (over 95° F or below 40° F), allow product to return to room temperature and always test before use. Not recommended for use after three months of purchase date.
