

ALPHA SHIELD® ULTRA-HEAVY-DUTY PROTECTION

These 48in x 96in ultra-heavy-duty sheets are designed with support pockets, creating high-compression protection, spreading the load of objects and machinery across the entire surface of the product. The textured face promotes grip to reduce the chances of accidents on the jobsite. The product's formulation will allow the product to resist warping, even when exposed to direct sunlight or external environments.

Alpha Shield can be used for virtually any job. It is tough enough to withstand forklift and other jobsite machinery, yet light enough to be used for vertical applications.

**TOUGHER
THAN THE
JOBSITE.®**

PRODUCT FEATURES

- Ultra-heavy-duty
