

ZIP N CLOSE® 12' & 20' CONTAINMENT POLES

Zip N Close® Poles allow for quickly constructing temporary walls to control dust and temperature.

Lock your containment poles in at just the right height with the all-new heavy-duty foot pedal. The foot pedal keeps continual compression on both points of contact for consistent pressure without rigid strain. The locking head ensures that the sheeting will not slip while the dent resistant poles are designed to stand up to the toughest conditions. These poles are available in 12 and 20 ft.

TOUGHER
THAN THE
JOBSITE.™
