

ZIP N CLOSE® 10FT CONTAINMENT POLES

10ft Zip N Close® Poles allow for quickly constructing temporary walls to control dust and temperature.

Lock your containment poles in with the twist and lock, height-adjustment feature. Pair this with the tensioned, reinforced foot that applies the perfect amount of pressure and these containment poles go up fast and stay up as long as needed without damaging surfaces. The locking head ensures that the sheeting will not slip while the dent-resistant poles are designed to stand up to the toughest conditions.
